

2.0 Vendor Chargeback Policy

2.1 General Information

- The purpose of chargebacks is not to create revenue for the Company, but to recover non-value-added costs and operating expenses incurred from correcting vendor errors and inefficiencies. This policy creates a means of feedback, ensures cost recovery, supports the goals of the Company, and allows everyone to share in the success of the Company.
- All vendor shipments delivered in error will be documented and be subject to the chargebacks as provided in Section 2.2. Additionally, a single vendor shipment with multiple errors may have each occurrence individually documented and charged back in accordance with Section 2.2.
- Requests for chargeback documentation must be submitted within 60 days. Any request for research on payment deductions over 6 months old may result in a chargeback.
- To request Company supporting documentation (i.e., photos, etc.) related to a chargeback, please provide vendor contact information to the Company's Merchandise Operations Vendor Relations department via email (see Section 12). When submitting chargeback documentation requests, be sure to include the following information:
 - Name of Contact
 - Title
 - Mailing Address
 - Phone Number
 - E-mail Address
 - PO number
 - Deduction type

Upon receipt of request, the Company's Merchandise Operations Vendor Relations department will forward supporting documentation within 72 business hours (3 business days).

- Any previously assessed chargebacks will adhere to the policies and procedures found in this guide.
- Any questions or concerns pertaining to chargeback issuance, negotiation, and/or reversals/refunds need to be directed to the Company's Vendor Relations department (see Section 12).
